

# Somehow, Somewhere, Someway

Kenny Wayne Shepherd

Now girl, I see you in my dreams  
It happens every day and night now  
You got me going to extremes  
Don't seem to care what's wrong or right now  
I'll make ya mine Someday  
Somehow, Somewhere, Someway

You say I'm really not your kind  
I know I look a little rough now  
If I could give you everything, girl  
Would it ever be enough now  
I'll make you mine someday  
Somehow, Somewhere, Someway

It makes me wonder what's goin' on baby,  
When the night rolls in

It something happens that feels so strong and  
And I just can't pretend, oh yeah

Oh don't you wonder what's, goin' on baby  
When the night rolls in  
It's something happens that, feels so strong and  
And it will happen again So, you can turn and walk away,

But I know you would regret it,  
If I ever had my way, yeah,  
Do you think you could forget it,  
It's gonna happen someday,  
Somehow, Somewhere, Someway

I wanna have you someday,  
Somehow, Somewhere, Someway

I'll make you mine someday  
Somehow, Somewhere, Someway
