

# Tailwind

Kenny Wayne Shepherd

Sometimes I feel like a man in a can  
About to go hurtling through  
Space, whiplash fast  
Soon as the match hits the fuse  
Sometimes it seems like I'm making it up  
Crazy and crazier days  
When fiction ain't stranger than the truth  
Turn the page  
Turn the page

Roll around the world  
And around again  
Someplace we've never been  
Blow a kiss and  
Fly with the sun  
See how lightning fast we can run  
With a little luck  
We might just catch a tailwind  
Hey, fellow travelers  
Keep travelin'

Somedays I swear that the game must be rigged  
Jokers up every last sleeve  
And if crooked is straight  
Then what the hell does that make me  
Sometimes it feels like I'm juggling fire  
Trying hard not to get burned  
Eyes on the flame, working and waiting my turn  
Waiting my turn

Roll around the world  
And around again  
Someplace we've never been  
Blow a kiss and  
Fly with the sun  
See how lightning fast we can run  
With a little luck  
We might just catch a tailwind  
Hey, fellow travelers  
Keep travelin'

Roll around the world  
And around again  
Someplace we've never been  
Blow a kiss and  
Fly with the sun  
See how lightning fast we can run  
With a little luck  
We might just catch a tailwind  
Hey, fellow travelers  
Keep travelin'  
We might just catch a tailwind  
So keep travelin'  
Keep travelin'
