

## Who Was That

Kenny Wayne Shepherd

I wanna know who, who was that while ago  
I wanna know who, who was that while ago  
You see when I came in, somebody ran out of my back door

Had his shoes in his pocket, overcoat in his hand  
Tell me baby, who was that man  
I wanna know who, who was that while ago  
Well when I came in, somebody ran out of my back door

Ashes in the ashtray, I don't even smoke  
Foot prints leading to my backdoor  
I wanna know who, who was that while ago  
Well when I came in, somebody ran out of my back door

When I went into the kitchen, dirty dishes in the sink  
Two wine glasses on the table and I don't even drink  
I wanna know who, who was that while ago  
Well when I came in, somebody ran out of my back door

When I went into the bedroom, I could tell something wasn't right  
Bed was all tore up like you'd been in a hell of a fight  
I wanna know who, tell me who was that while ago  
Well when I came in somebody ran out of my back door

I wanna know who, tell me what's going on  
Tell me who, tell me what's going on  
I believe to my soul somebody's been getting my love bone  
Tell me who, who was that while ago  
I wanna know who, who was that while ago

Who was that, who was that while ago  
Who was that, who was that while ago  
Who was that, who was that while ago  
Who was that, who was that while ago  
Who was that, who was that while ago  
Who was that, who was that while ago

I wanna know baby, I want to know right now  
Who was that while ago
