

# Keep It Rolling

KennyHoopla

So was it worth it, kissing the toad?  
I wanna know, I wanna know  
Did it come through, your miracle?  
I wanna know, I gotta know  
Now we can fake this now (Fake this now)  
We can repeat this loud (Repeat this loud)  
Thought we would live in clouds (Live in clouds)  
Guess we will live in clouds

So much travel, so much tone  
Spikes in tires, on our own

Can you keep this rolling? (I know)  
Can you keep this rolling? (I'm not gonna hate it)  
Can you keep this rolling? (Play more records)  
Can you keep this rolling? (Let's just play through)

Let me help

It's history fuel  
Language we've pioneered  
Eager choir of troops  
Humming into my ear  
So what I'm trying to say is (Trying to say is)  
After working the grave shift (Still have no takers)  
Our mission is tainted, our life choices  
(All downhill, downhill from here)

So much travel, so much tone  
Spikes in tires, on our own

Can you keep this rolling? (I know)  
Can you keep this rolling? (I'm not gonna hate it)  
Can you keep this rolling? (Play more records)  
Can you keep this rolling? (Let's just play through)

Let me help

Let me

But I don't care anymore if you  
Go away, don't break  
Your fate, just take  
Your shame, your shame  
So was it worth it?  
Don't know what was worth it
