

All Before You

Kensington

The longer we wait the better we get
One other good day and I'll believe it
I want to be safe out here
Unharmed forever
Instead I will bathe in fear
Too fooled to get it

But I will warn you
That I've done this all before you
And I hoped I had it in me
But I just don't get it
Yet
No

Why let it in if I won't keep it?
Throw in a safe part of the flame
And I will feed it
And if I knew how to play sincere
I swear I'd do it
But every trace of tears
Will turn my head again

And I will warn you
That I've done this all before you
And I hoped I had it in me
But I just don't get it
Yet

But I hope to
'Cause I've seen this all before you
And I thought I had it in me
But I just don't get it
Yet
No

How did I end up here
All I give is worn out phrases
Cold embraces
How did I end up here
All I give is worn out phrases
Cold embraces

And I will warn you
That I've done this all before you
And I hoped I had it in me
But I just don't get it
Yet

But I hope to
'Cause I've seen this all before you
And I thought I had it in me
But I just don't get it
Yet
No
