

# Envelope

Kensington

I can't keep this time  
Unfold this letter now  
I hope you read this  
When your eyes are open wide  
Devoted to the cause  
I never missed your part in this game

We have nothing in common  
But we started it off  
Rendezvous in the weekends  
We know wasn't enough  
The time we had to proof that we exactly  
Knew what we were doing was short  
But long enough to tell you this

I can't keep this time  
Unfold this letter now  
I hope you read this  
When your eyes are open wide  
Devoted to the cause  
I never missed your part in this game

So the story continues  
We hope just but know that  
Love could easily win you  
Or kill your fears away  
The time we had to proof that we exactly  
Knew what we were doing was short  
But long enough to tell you this

The time we had to proof that we exactly  
Knew what we were doing was short  
But long enough to tell you this

I can't keep this time  
Unfold this letter now  
I hope you read this  
When your eyes are open wide  
Devoted to the cause  
I never missed your part in this game

And on, and on, and on  
The tide will come along  
And they will carry these waves  
Waves, waves  
These words, these names  
I use as an envelope  
To make your day  
These words, these names  
I use as an envelope  
To make your day

I will never stop this journey  
I will never stop this journey
