

Lightning

Kensington

If you ever love somebody
Tell them the first chance you get
'Cause you never know when it's over
And you're left with the storms in your head

I just wanna hold us together
Like a shelter
From the storms that roll in
It doesn't matter if I hold tightly
You're like lightning
Running through my arms again

If you really love somebody
Sometimes you got to let go
When you really just wanna hold 'em
But you know that your hearts been outgrown

I can't stay
If you won't wait for
Me
I can't change
If you keep changing on
Me

I just wanna hold us together
Like a shelter
From the storms that roll in
It doesn't matter if I hold tightly
You're like lightning
Running through my arms again

Running through my arms again
Running through my arms again

I really love somebody
I wish I could tell you again
I just wanna hold you forever
Like lightning
I just wanna hold you forever
Like lightning

If you ever love somebody
Tell them the first chance you get
