Give me your love
That's what I want
Scream it out loud
Don't let the silence take it away
You're the best thing that I've got
I'm sure as hell of that
And no one else can take your place

Why do we have to be this way
Why do we have to play these games
Why can't we just be the same
Like we used to

Why can't we just we stay
Stay for another day here
I wish you were mine
But I know my love is wasted
Why don't we stay

Stay
Stay

Stay
Stay

Let's leave this town
We'll head for higher
Souls on fire
I'm hoping that we'll make it one more day

Why do we have to be this way
Why do we have to play these games
Why can't we just be the same
Like we used to
Why do we have to be this way
Why do we have to play these games
Why can't we just be the same
Like we used to

Why can't we just stay
Stay for another day here
I wish you were mine
But I know my love is wasted
Why can't we just say
Say what we gotta say here

We're running out of time
And it's hard for me to face it
Face it

Watching as we faded
Watching as we faded

Why can't we just stay
Stay for another day here
I wish you were mine
But I know my love is wasted
Why can't we just say
Say what we gotta say here
We're running out of time
And it's hard for me to face it
Face it
