

# Bae

Keri Hilson

Maybe it's your fragrance  
Wanna kiss you every morning when you wake up  
It's a vibration  
I don't know what to call it right now  
But this shit feeling amazing, oh  
Make me wanna pull over the car, get acquainted  
Feeling elevated, yeah  
Getting high off your love, I can't take it

Baby, you a mood, that ain't nothing new  
I gave you the ball, baby, that's a alley-oop (Swish)  
Got the top down in the coupe, it's just me and you  
Can't control myself, keep doing what you do

Damn, I feel so lucky  
Love it when you call me bae (Bae, bae, bae)  
Love it when you love me, hold me, touch me  
Come here bae (Bae, bae, bae)  
I'm gon' always be your one and only  
You know that I'll never change (Bae, bae, bae)  
Love it when you love me, hold me, touch me  
Come here bae (Bae, bae, bae)

Wherever you are  
Just give me a buzz  
It ain't nothing left to discuss  
I'm pulling up  
I'm on that like, ding-dong  
That's me in my trench coat  
Not a damn thing you could say wrong  
That's how I know I'm way gone

'Cause baby, you a mood (Mood), that ain't nothing new  
I gave you the ball, baby, that's a alley-oop (Swish)  
Got the top down in the coupe, it's just me and you  
Can't control myself, keep doing what you do

Damn, I feel so lucky  
Love it when you call me bae (Bae, bae, bae)  
Love it when you love me, hold me, touch me  
Come here bae (Bae, bae, bae)  
I'm gon' always be your one and only  
You know that I'll never change (Bae, bae, bae)  
Love it when you love me, hold me, touch me  
Come here bae (Bae, bae, bae)  
Come here bae

Say, say, say  
When you call me bae, bae, bae (Bae, bae, bae) Ooh  
Say, say, say (Uh)  
I love it when you call me (Bae, bae, bae)  
When you call me (Bae, bae, bae)

Say, say, say  
When you call me bae, bae, bae, ooh  
Say, say, say  
I love it when you call me

When you call me
