[Verse 1:]

I follow my heart  
But every time I do it gets me lost and left in the dark  
But I think its clear this time, I guess  
We're just not compatible  
You pick me up and let me down  
You give me nothing to fall on (yeah)

[Hook:]

Damn I wish that cupid's arrow never hit  
Never went thru me, thru me  
Wish we never crossed the line  
Wish I never gave you this booty  
That ain't bout no other, back to friends then lovers  
Lets just call this what it is babe, what it is babe

[Chorus:]

Never thought I would say  
We were a beautiful mistake (and it is what it is)  
Can't say it no other way we were a beautiful mistake (and it is what it is)  
Damn I wish I could stay but we were a beautiful mistake  
Boy you know I'm gonna miss you by my side but it is what it is

Ahhhh baby  
That's what it is what it is  
Ahhhh baby

[Verse 2:]

You followed your heart (your heart)  
It lead you to me but in reality I  
Don't fit the part  
We gave it a room but it flew outta control now  
Don't get me wrong, what we had was good I  
Really thought we stood a chance  
But that love quickly passed

[Hook:]

Damn I wish that cupid's arrow never hit  
Never went thru me, thru me  
Wish we never crossed the line  
Wish I never gave you this booty  
That ain't bout no other, back to friends then lovers  
Lets just call this what it is babe, what it is babe

[Chorus:]

Never thought I would say  
We were a beautiful mistake (and it is what it is)  
Cant say it no other way we were a beautiful mistake (and it is what it is)  
Damn I wish I could stay but we were a beautiful mistake  
Boy you know I'm gonna miss you by my side but it is what it is

[Bridge 1:]

Time to hang it up if you breaking up  
You can hang it up (that's what it is, what it is)  
Time to hang it up if you breaking up  
You can hang it up

[Bridge 2:]

Ain't no use in fighting cuz its understood  
We both know we tried it but it didn't turn out good  
Ain't no use in fighting cuz its understood  
We both know we tried it but it didn't turn out good

Don't you see that we're just a beau-  
tiful mistake, that's what we are [repeat until fade]
