

Can't Wait

Keri Hilson

I got my chains on
And my favorite cologne
The barber got me right, I know
And they just valeted the Ghost

But let me tell you
All these things ain't better
Than walking with a Queen
Together girl we make the perfect team
No way we can lose

I can't wait till I show up in there with you
Can't wait till I show up in there with you
You know what we came in this bitch to do
Can't wait till I show up in there with you
I know I ain't got nothing else to prove
Can't wait till I show up in there with you
I know I got the baddest in the room
Can't wait till I show up in there with you

It's like a theme song
Soon as you step inside it's on
They should have some champagne pouring
While the whole crowd sings along

Let me tell you
All these things they add up when
You walking with a King
Together boy we make the perfect team
No way we can lose
Can't wait to slide up this bitch with you

I can't wait till I show up in there with you
Can't wait till I show up in there with you
You know what we came in this bitch to do
Can't wait till I show up in there with you
I know I ain't got nothing else to prove
Can't wait till I show up in there with you
I know I got the baddest in the room
Can't wait till I show up in there with you

Don't it feel like my birthday
Soon as we step inside
But that ain't no surprise
You caught everybody's eyes
It's like a DJ shouting me out
Yea you always shutting shit down

I can't wait till I show up in there with you
Can't wait till I show up in there with you
You know what we came in this bitch to do
Can't wait till I show up in there with you
I know I ain't got nothing else to prove
Can't wait till I show up in there with you
I know I got the baddest in the room
Can't wait till I show up in there with you
