

## First

Keri Hilson

I know they say ladies first but that ain't what I heard

Momma taught me, taught me good, how to carry myself like a lady

And I'm listening and understood that these dudes be trippin man but I got the upperhand

Ain't no slick talkin, fast walkin make me break my rules

Won't you givin now my number, til my momma says it's cool

Cause we ladies never chasing, always keep em waiting

Girl do you hear me? Now listen clearly

Don't be the first to call (first to call) make him wait

Don't be the first to move (first to move) hesitate

Ma told me rules to the game

Nothing's change, yes it's true

Can't be the first to fall, no

No, fall for you

You live by these words I won't give if you don't earn

I hit the game, and I ain't no lame

And if you wanna get to know me, boy you gotta show me

Ain't no slick talkin, fast walkin make me break my rules

Won't you givin now my number, til my momma says it's cool

Only way to keep from stressin, always keep em guessin

Girl do you hear me? Now listen clearly

Don't be the first to call (first to call) make him wait

Don't be the first to move (first to move) hesitate

Ma told me rules to the game

Nothing's change, yes it's true

Can't be the first to fall, no

No, fall for you

Don't be the first, don't be, don't be the first

The first to fall (fall), first to fall

Don't be the first, don't be, don't be the first

The first to fall, first to fall

Don't be the first to call (don't chu be) (first to call) make him wait (be a lady)

Don't be the first to move (first to move) hesitate

Ma told me rules to the game

Nothing's change, yes it's true

Can't be the first to fall, no

No, fall for you
