Scream

Keri Hilson

Everytime I get on, baby I'm all over it, all over this room, oh shit
You put it in drive, you hit the gas, you tryna crash, you can crash
it all night
Daddy make me lose my breath, yeah do it
Get it (fit it) get it (do it)
Make this shit a movie
Oh baby, oh you drive me crazy
Oh you gonna make me scream

You gon make me scream
You gon make me scream
Baby baby, take me there
Make me lose my mind, do it so so deep (oh yeah)
You gon make me scream
Keep holding onto me
Baby when you touch me I just can't get enough of you

So glad these walls can't talk
Know all my dirty secrets, camera phone on, aww shit
Tryna make me your star, your big screen
Miss cali king, I'm doing this all for you
Get it (fit it) get it (do it)
Make this shit a movie
Oh baby, oh you drive me crazy
Oh you gonna make me scream

You gon make me scream
You gon make me scream
Baby baby, take me there
Make me lose my mind, do it so so deep (oh yeah)
You gon make me scream
Keep holding onto me
Baby when you touch me I just can't get enough of you

I'm about to blow, feel my body pulse
Dancing on the edge of insanity, ooh ooh
Oh the way you do me, taking all of you, baby
I can't scream no more, I've got for you yeah
Get it baby, get it daddy, get it baby
You're making me hurl, why you making me beg for it?
Why you making me cry for it, why you making me scream for it?
Oh
Make me scream, you gon make me
You gon make me get on my knees

I can't get enough
You gon make me scream
