

## Dancing in the Morning

Keri Noble

Alarm clock going off, gotta get ready for another day  
Always begins the same  
Up now, outta bed, feed the cat, making sure the coffee's on  
Doin' my makeup, singing my favorite songs

That's when you, right on cue, turn the corner and you pull me  
in  
Like we got nothing to lose. I'm just dancin' in the morning wi  
th you

Car starts, running late, interstate, listen to the radio  
Makin me feel like I'm not alone  
Small talk, punch the  
Clock, killin'time, wasn't that long ago  
You and I were both alone

And you, right on cue, turn the corner and you pull me in  
Like we got nothing to lose. I'm just dancing in the morning wi  
th you.

Maybe we'll get lucky. Make so much money and we'll never work  
again  
But I can promise, if I'm being honest, more than anything  
I'll miss our morning dance

Alarm clock going off, gotta get ready for another day  
Always begins the same
