

Global Annihilation

Kerion

Global war has begun
Bombs explode on battlefields
Fireblasts everywhere
All over town, shaking its walls
Droids, robots, humans
All fight against each other
Blinding lights are shining
Into the sky, burning again

Is this the end of
The age of cyborgs ?
I can't trust my eyes !

Panic reigns in cities
Buildings collapse one by one
People run far away
Across the streets
And scream in fear
There is no shelter here
The frontline is everywhere
Nuclear weapons are ready to go
Destroy our world

There's no time to waste !
There's no second chance
We have to unite !
Come and join us now !
We need you to win
Please don't let us down !!
And from the clouds,
This thing has come
Celestial ship,
Hiding the sun
Darkness and dust,
Surround this place

My friends
Time has come now
To lead our ultimate fight
Whatever it takes

Bullets fly fast in the air
Smell of guns spreads all around
Missiles whistle in the sky
Announcing our tragic end
It's too late now for our world
But there's still some hope to save
A part of humanity
Keep up !

Molten metal flows through
The ground, like a man bleeding
Shockwaves cross the planet
This is global Annihilation

Cyborgs your time is up
You belong to the past now

Age of chaos begins
Darkness and death
Ashes and dust

And from the clouds
This thing has come
Celestial ship
Hiding the sun
Rubbles and void
That is what's left
