

Red Squad

Kerion

Soldiers of steel
Iron warriors
Mortal machines designed for fight
Cyborgs and proud
Ready to follow
Whatever it takes
Our leader
We are mechanical beings
Arising from darkened places
We are bionic creatures
Without blood running through our veins
Time has come for us to make an end of it
We're coming for you
Red Squad! Our name!
We will fight until you finally fall
Come on!
We won't forsake our mission
There's no hope for you
Red Squad! Our name!
We will burn the whole town to find you
Don't run!
There's no place to hide my friend
Don't try to escape
Battle robots
Mighty droids
Mercenaries of the future
Heavy but fast
Ready to destroy
Whatever it takes
Our target
We are technical weapons
Stored inside cold factories
We are metallic angels
Without soul, flying in the night
Time has come for us to make an end of it
We're coming for you
