

I Want Nothing

Kerli

Having the time of your lives
Happy within your disguise
Watch how the child in you dies
Circles inside of your mind

There is more than meets the eye
Life is more than meets the eye

Strange how you got it but you're still coming back for more
But I want nothing
If you think that you got it while they're treating you like a whore
And I want nothing

Faking it all of the time
Conscience it cuts like a knife
When will you start to realize
We don't have time on our side

There is more than meets the eye
Hits you right between the eyes

Strange how you got it but you're still coming back for more
But I want nothing
If you think that you got it while they're treating you like a whore
And I want nothing from you
And I want nothing from you
And I want nothing

There is more than meets the eye
Hits you right between the eyes

Strange how you got it but you're still coming back for more
But I want nothing
If you think that you got it while they're treating you like a whore
And I want nothing from you
And I want nothing from you
And I want nothing

Strange how you got it but you're still coming back for more
But I want nothing
If you think that you got it while they're treating you like a whore
And I want nothing from you
And I want nothing from you
And I want nothing

Strange how you got it but you're still coming back for more
But I want nothing
If you think that you got it while they're treating you like a whore
And I want nothing
