

Insomnia

Kerli

I feel the night is falling
I feel the chills skating down my spine
A headache, a mind break
I'm weak enough, can you tell me
Why can't you set me free?
I'll be what I want you to be

No more, this time I will find you
And you ain't gonna break through
'Cus you have done enough
(Insomnia)
No more, I'm sick of being blinded
I'm tired of these nightmares
Oh, can you help me, please
Insomnia

I see the darkness growing
I see your face, please don't hurt me again
Oh, fuck you, I hate you
You got my soul, can you tell me
Why can't you set me free?
I see what I want you to see

No more, this time I will find you
And you ain't gonna break through
'Cus you have done enough
(Insomnia)
No more, I'm sick of being blinded
I'm tired of these nightmares
Oh, can you help me, please
Insomnia

Monsters under my bed
Demons in my head
Sleeping with the lights on
Why am I so scared?

No more, this time I will find you
And you ain't gonna break through
'Cus you have done enough
(Insomnia)
No more, I'm sick of being blinded
I'm tired of these nightmares
Oh, can you help me, please
Insomnia

Help me please
Help me, help me, help me please
Help me
(Insomnia)
Help me please
Help me, help me

Insomnia
