

# Red Flags

Kerli

I'm already at a loss  
Your an ocean I can't cross  
And my heart will pay the cost

I know you're a battle luring me in  
Say the waters safe to swim  
Let the story now begin

'Cause I can see the red flags waving  
Bottom of my heart is caving in  
I can see there's just no saving me  
There's no way out  
I'm going in  
I want to be good but I want to be bad  
I can see the red flags waving  
I can see the red flags waving

Nobody but myself to blame  
Like a moth starts to the flame  
I can not keep my hands clean

Even though every sign says "save yourself"  
Read the warnings to my health  
I don't want to help myself

'Cause I can see the red flags waving  
Bottom of my heart is caving in  
I can see there's just no saving me  
There's no way out  
I'm going in  
I want to be good but I want to be bad  
I can see the red flags waving  
I can see the red flags waving

I want to be smart  
Want to protect my heart from pain along the way  
But I can hold back  
Gonna step on the cracks I just can't play it safe

'Cause I can see the red flags waving  
Bottom of my heart is caving in  
I can see there's just no saving me  
There's no way out  
I'm going in  
I want to be good but I want to be bad  
I can see the red flags waving
