

## Let's Go to the Forest

Kero Kero Bonito

Hey, let's all go into the forest  
Nobody will notice for a while  
There we can visit all the creatures  
Maybe they can teach us facts of life

Or we can travel to the ocean  
Don't forget your lotion  
It's quite hot  
I once met seven lovely crabs  
They said I should go back and join them for tea

Oh wait, the forest got demolished  
When they built the airport years ago  
But we can still go see the ocean  
Cause they put it in a bowl at the mall
