

Well Rested

Kero Kero Bonito

For all of existence
Humanity has been guided by only one principle
To keep living

Kagiri

We will never cease to seek the day
Or give up the future come what may
Living runs
In our blood
Though the earth will turn a final time
There is more to know and much to find
So we must
Hold the sun
Over us

Over us

False prophets proclaim that the end is nigh
And that humanity is not worth existence
This is a trap laid to ensnare the living
A lie of the weak-willed
The inhuman
Their temples are in disarray
And they surely cannot know
What only Gaia knows

The resurrection will come
Only when Gaia requires it
It will not come soon
If we care for our mother
Instead, we will be well rested

And we will be well rested
When the ascension comes
And we will be well rested
When the ascension comes

And we will be well rested
When the ascension comes

And we will be well rested
When the ascension comes
And we will be well rested
When the ascension comes
And we will be, yeah

We are taught hopeless death
To break down our resistance to it
This is a hallmark of the unholy temple
We must fight the unnatural cause of anti-humanity
And listen to the earth's word

Humanity
(All life)
We carry forward
(A family)
Will follow us
(In silence)
'Til the day we arise for
Eternity
(All time)
Is stored within us
(Our destiny)
Is a path that never alters
From the first to the last of
Humanity
(All life)
We carry forward
(A family)
Will follow us
(In silence)
'Til the day we arise for
Eternity
(All time)
Is stored within us
Our destiny
Is a path that never alters
From the first to the last of

We carry forward
A family
In silence
'Til the day we arise for
Is stored within us
Our destiny
From the first

Humanity
Will follow us
Eternity
Our destiny
From the first

All life
'Til the day we arise for
Is a path that never alters

We have survived a hundred apocalypses
(A family)
Doomsday hasn't come yet
You cannot stop civilisation

For all of existence

Humanity has been guided by only one principle
To keep living
