

My Heart's Lifted

Kerrie Roberts

Weightless I can still remeber the way I felt that day
When Your grace glowing
like an ember burned my past away

Now I'm soaring above the clouds
I can finally see the sun
And this world can't bring me down
Because of all You've done

You got my heart
Got my heart' heart lifted
Oh my soul
Oh my soul
Keep singing
All day long
This is my song
My heart is lifted

Floating leaving all my worries
Because your burden is light
Knowing even when it's blurry
Your voice will be guide

Now I'm soaring above the clouds
I can finally see the sun
This world can't bring me down
Because of all You've done

You got my heart
Got my heart, heart lifted
Oh my soul
Oh my soul
Keep singing
All day long
This is my song
My heart is lifted

You lift me up
High with your love
I want to shine
Just like the sun

You lift me up
High with your love
I want to shine
Just like Your Son

You got my heart
Got heart, heart lifted
Oh my soul
Oh my soul
Keep singing
All day long
This is my song
My heart is lifted
