

# Ask About Me

Kerser

Let them talk about me  
Haters helped me build a kingdom, now they crown me  
'Cause I kept it real, I look out on my balcony  
Fuckin' oath, I'm proud of me

'Cause I did what I said I would, ask about me, yeah  
'Cause I did what I said I would, just ask about me  
'Cause I did what I said I would, just ask about me, yeah  
'Cause I did what I said I would, ask about me, just ask about me

Live on the edge, did what I said  
Some people proud, some wish I wish dead  
I let 'em talk, I ain't even gonna hear that  
I be myself anywhere I appear at  
If this levels then I'm levels above  
They check my income, they think that I'm peddlin' drugs  
'Cause a lifestyle lavish, king but I'm savage  
Awfully legit, won't quit like an addict  
Let me tell you what come with the game  
First come the fame, then come the pain  
Then come the stray bullets 'cause your name  
Got 'em in a rage, what they gonna say?  
Let it go, wait, you gonna hop on stage  
Then they gonna question why you're gettin' off your face  
You start to loss  
On my way to the top, I'm a true boss

Let them talk about me  
Haters helped me build a kingdom, now they crown me  
'Cause I kept it real, I look out on my balcony  
Fuckin' oath, I'm proud of me

'Cause I did what I said I would, ask about me, yeah  
'Cause I did what I said I would, just ask about me  
'Cause I did what I said I would, just ask about me, yeah  
'Cause I did what I said I would, ask about me, just ask about me

Ask 'bout me, swerve 'round free  
AM in the a.m., GM, maybe I could see  
Real life in a dream house, feels weird  
Face fear is the only way to kill fear  
Are you still here for the long ride?  
By my side even when it was the wrong side  
Stay strong, I got my head high  
They take shots when they start to see your bread rise  
I'm dead nice and I'm all about the max profit  
I charge double so I'm covered when the tax chop it  
Got your back, promise, 'cause you have mine  
For the fans, I can't even try and match lines  
How I'm meant to put to words how you saved Kers  
But my music helps you so we take turns  
Longevity, we immortal  
They talk about me 'cause they know they can't talk to

Let them talk about me  
Haters helped me build a kingdom, now they crown me  
'Cause I kept it real, I look out on my balcony

Fuckin' oath, I'm proud of me

'Cause I did what I said I would, ask about me, yeah

'Cause I did what I said I would, just ask about me

'Cause I did what I said I would, just ask about me, yeah

'Cause I did what I said I would, ask about me, just ask about me
