

Reppin'

Kerser

Get it reppin' for the West Side
East Side, North Side, East Side, Your Side
We just move with it
Chuck a 2 up with a 5 and just groove with it
Get it reppin' for the West Side
East Side, North Side, East Side, Your Side
We just stay with it
Put a half in a spliff, come away with us

The only flaws I've got are the ones that I walk on
They make me mad tired if my jewellery all on
I had 'em all excited when I mentioned released dates
I hit the road and go like one percenters in each state
So come and ride with me
I've got Patron and a little bit of wine in me
I roll stoned like I'm Mick Jagger, listen how a pimp hammer
You take some H and get it stuck all in a bitch bladder
Now girl you do a drop, bitch
If it don't pop slit, then you might've got rich
 Fucked up, ain't it? Seen trains go painted
Seen blades, just spray it, leave their brains on pavements, laters

Get it reppin' for the West Side
East Side, North Side, East Side, Your Side
We just move with it
Chuck a 2 up with a 5 and just groove with it
Get it reppin' for the West Side
East Side, North Side, East Side, Your Side
We just stay with it
Put a half in a spliff, come away with us

I've got new hits and old hits, hot shit and cold shit
Mosh pits like rock shit, hard shit and pop shit
I do it all, I'm not the same as the others
Lames hating on lames, they're always lame as each other
I roll with gangbangers, who like to bang ganga's
They ain't two-faced but mask up and change faces
The best with this, I think you get the gist
How I do this so long and still I'm yet to miss
I hit the net and swish man, this shit be too easy
I've been nice since I've ripped a few CDs
Made a few songs, had me sitting at the winners table
Dealers bringin' pingas back and that's because of "Winner"
Thank you!
