

Seen It All

Kerser

It da sickest when I roll through
For the strippers on the pole too
If you in a gang, claim it
Why you carry that shit and not bang it?
And yo, I set the trends too
Influence, this what happens when I step through
I ain't nothin' like you seen before
You seen Kers and you pretty much seen it all

I been bangin' in this shit for like the longest
You seen me hangin' in the street, thought I was long lost
But I'm a different kind, fifty typa different minds
Only backstabbin' if my shiv hits your spine
Up in C-Town, trippin' how it changed heaps
Still got love and still got cunts on the same streets
Life a trip, man I'm really the top boss
Any situation we've handled if it's popped off
My girl my ride or die, I'm just spittin' the big facts
We made for each other, I'm the only one who's hit that
For real Kers represent like a sick cunt
Rollin' a spliff up in a stolen Eclipse car
Got three deals and I think I just locked 'em all
How you say you at the top for when you ain't top four?
They not raw, they ain't done it like this
Matter fact ,you can't find a time that I done it and missed
Bitch

It da sickest when I roll through
For the strippers on the pole too
If you in a gang, claim it
Why you carry that shit and not bang it?
And yo, I set the trends too
Influence, this what happens when I step through
I ain't nothin' like you seen before
You seen Kers and you pretty much seen it all

This is mine, drop heat, I'm a star, bruh
I'm stressed out today kinda hit me hard
'Cause my mate robbed my mate now I gotta ask my mate
If he'd give back to my mate without my mate getting - wait
It's a bit too much but it life though
My boy got pinched talkin' on a iPhone
Tried to use face lock, got his face locked
Now he paranoid, 'cause people want his face shot
Sad 'cause it's true, I ain't mad, I'm immune
What we haven't been through? Man you're battlin' who?
What's the matter with you? I remain on my feet
Took the troubles from my brain and put the pain on a beat
I don't listen to these cunts, I just hear what I got to
I put you on my show so my whole crew can rob you
The main event, I'm like the highlight reel
Man they came to me and begged me to sign my deal
For real

It da sickest when I roll through
For the strippers on the pole too
If you in a gang, claim it

Why you carry that shit and not bang it?
And yo, I set the trends too
Influence, this what happens when I step through
I ain't nothin' like you seen before
You seen Kers and you pretty much seen it all
