

# Smokin' Up

Kerser

I fucken been here before  
I got the pigs at the door  
I'm pumping 2Pac Shakur  
And to the dogs I don't talk  
But cunts are sussing me out  
They tell me prove what I bought  
I tell em check the fucking charts  
They accuse me of more  
I need these cunts of my back  
I just wanna get high  
But it feels like they gon' follow till the day that I die  
Get the fuck from the front, cunt  
I smell like success I fucken hip hop while its dry  
Yeh I'm smelling the sex  
I'm feeling the stress yet I'm still feeling the edge  
My eyes are red blood shot and I built my defense  
I'm getting chased by these models  
While you be paying at brothels  
But I'm only lighting hoes if they came with a bottle  
I'm the man of the moment  
Man my moment is potent  
I'm exploding I wrote it  
That means its only the dopest  
You know that...

[Chorus:]

I don't need another chance to prove myself  
I put the street shit on the map  
Yea we did it ourselves  
We get high, we get high  
And I'm aiming for the stars  
I was broke as fuck  
Now I'm getting that money still smokin' up  
We get high, we get high

I start ironing your face  
So we can get some shit straight  
I've been fucking killing rap since I dropped my mix tape  
I'm going hard with the rap, if I gave half of it back  
Id still be running aussie hip hop  
Still I'm laughing at jacks that's why they all listen  
From the kids in the commission  
To the people running businesses  
I gotta stray your spinning watch me ball hard  
Imma show it all of  
With my middle finger up, like look at what you don't got  
I'm rockin city to city  
I'm rockin flight to flight  
I ain't like none of these rappers  
Probably fight tonight  
Yea I got it like that, I swear I'm living like fla 2  
I'm driving round the city and my car got a glass roof  
Rose up from the gutter abit of bread and some butter  
But I never need nada  
Did this shit on my oda  
Need to say it anymore  
Let me jump up the crime rate

Buy and sell guns I'm just wasting my time mate

[Chorus]
