

# Amnesia

Ke\$ha

Don't say you don't remember last night  
At the party all your friends were there  
You said you really liked my hair  
You asked me, would I go for a walk  
Where we could find a quiet place to talk  
I asked, well what ya wanna talk about  
And you kissed me on the mouth

Do you have a case of amnesia  
You look the other way every time that I see ya  
You're acting like you don't even know my name  
Hey, what's your game, what's your play  
Why you wanna be that way?  
Like you have amnesia, amnesia

Hanging out at the mall today  
You saw me there, don't even lie  
But you walked right by  
Don't you remember how you held my hand  
And said you couldn't wait to do it again  
Then you drove me to my house  
And you kissed me on the mouth

Do you have a case of amnesia  
You look the other way every time that I see ya  
You're acting like you don't even know my name  
Hey, what's your game, what's your play  
Why you wanna be that way?  
Like you have amnesia, amnesia

If that's the way you feel  
It's really no big deal, really no big deal  
You can do what you wanna do  
Paradoxically, paradoxically  
The next time you come for me  
I won't remember, no, I won't remember you  
And you'll be singing

Do you have a case of amnesia?  
Do you have amnesia?  
I'll have you singing boy, I'll have you singing  
Do you have a case of amnesia?  
Every time I see ya I'll have you singing

Do you have a case of amnesia  
You look the other way every time that I see ya  
You're acting like you don't even know my name  
Hey, what's your game, what's your play  
Why you wanna be that way?  
Why you wanna be that way?  
Like you have amnesia, amnesia  
Like you have amnesia, amnesia
