

Shadow

Ke\$ha

I feel so good
Why you so mad?
And I'm so happy
And you hate that
But I love love
And I love life
And I love trippin' in the desert with my best friend
Seein' spaceships in the sky

And I love singin' fuck in all my songs
'Cause the only people who got time to get offended
Are the ones who probably never gotten off

So get your shadow outta my sunshine
Outta my blue skies
Outta my good times
So get your darkness outta my damn way
I'll be dancin' in the rain
I'ma love you even though you hate me
I'ma love you even though you hate

We all got shit
Who's to throw stones?
Live and let live
Or just stay the fuck home
So we could love love (We could love love)
If you love life (If you love life)
Then we can sail this blue dot
Spinnin' endless in the night sky

And if you love partyin' then party on
And if you're here to throw shade
Then you're in the wrong place
Yeah, you're blockin' my sun

Go get your shadow outta my sunshine
Outta my blue skies
Outta my good times
So get your darkness outta my champagne
I'll be dancin' in the rain
I'ma love you even though you hate me
I'ma love you even though you hate

I'll just keep on doin' what I do best
Pissin' off people who wanna be pissed
Hate is the poison, love's the elixir
If you don't like me you can suck my

So get your shadow outta my sunshine
Outta my blue skies
Outta my good times
So get your darkness outta my damn way
I'll be dancin' in the rain
I'ma love you even though you hate me
I'ma love you even though you hate
I'ma love you even though you hate me
I'ma love you even though you hate

I'ma love you even though you hate me
I'ma love you even though you hate
