Keshi

Said you tired of the distance
You tired of the fake love
Say you don't really miss him
But I don't really blame ya

Don't need nobody else
Don't need nobody help, mmm
You get it on your own
So why you beside yourself?

So afraid to give and take your pain
(Know better but I pay no mind
Get me inside 'fore I go one time)
So afraid to give your love away
(Know better but I pay no mind
Get me inside 'fore I go one time)

You don't gotta worry 'bout nothin'
Baby girl, you know that I ain't leaving
Don't cry, alright
Don't cry, alright

Baby, go make yo' mind
Baby, go make yo' mind up
Say it's gonna take some time
Keep me round by your side, yeah
Say you wanna spend the night
Then you all undecided
Baby, go make yo' mind
Baby, go make yo' mind

Say you wanna talk til' the sunrise
I don't really mind if we stayin' up
Say you got work but it's alright
Hope I make you feel a little better
Singing you love songs
Tell me I got you all wrong
So you can run away

So afraid to
Give and take your pain
(Pull me close, love me not
When you low, hit me up babe)
So afraid to
Give your love away
(Take your clothes, love me lots
On my phone, hit me up babe)

You don't gotta worry bout nothin'
Baby girl, you know that I ain't leaving
Don't cry, alright
Don't cry, alright

Baby, go make yo' mind
Baby, go make yo' mind up
Say it's gonna take some time
Keep me round by your side yeah

Say you wanna spend the night
Then you all undecided
Baby, go make yo' mind
Baby, go make yo' mind
