

## more

Keshi

Said she want more, I'm not enough  
Getting low and I think I'm giving up  
Baby, come home, I want us  
I want us, said I want us  
Said she want more, I'm not enough  
Getting low and I think I'm giving up  
Baby, come home, I want us  
I want us, said I want us

Said I gotta get money, swear I still love you  
I don't wanna go but you know that I have to  
Touch road, gotta play shows  
Crowd go wild for the shit I wrote  
But this shit so-so, lose control  
Gotta change up everything I know  
Better, run ways when you smell that smoke  
Better, hold me when my head gon' blow like

Hasta la vista  
Dying to see ya in a dream that I had  
Where I sing in arenas  
Hasta la vista  
Dying to see ya  
Baby, it ain't so bad  
When there's nothing between us

Said she want more, I'm not enough  
Getting low and I think I'm giving up  
Baby, come home, I want us  
I want us, said I want us  
Said she want more, I'm not enough  
Getting low and I think I'm giving up  
Baby, come home, I want us  
I want us, said I want us

Gone so fast, all the bad habits  
Not gon' last, better run back, kid  
Just so sad, worse than last year  
Just might crash, just might crash  
Just might

Everybody left except for you and I  
She don't want stories and lullabies  
She don't understand that it's do or die  
Said I can buy it all but it's all a lie

No trade for the things I lost  
No train for the boy that stopped  
Run ways into these arms of mine  
No trade for the things I lost  
No train for the boy that stopped  
Run ways into these arms of mine

Said she want more, I'm not enough  
Getting low and I think I'm giving up  
Baby, come home, I want us  
I want us, said I want us

Said she want more, I'm not enough  
Getting low and I think I'm giving up  
Baby, come home, I want us  
I want us, said I want us  
Said she want more, I'm not enough  
Getting low and I think I'm giving up  
Baby, come home, I want us  
I want us, said I want us
