

Night

Keshi

(Requiem)

Hard to breathe, every move I make, feel them watching me
Try to run away but I can't seem to make a sound
But I keep screaming out

On my body all the rest, I
Gave it up all that's left is you
I try to reach but I can't move

Yeah, ooh, waiting for the light
I can't close my eyes
When I'm alone I hear it calling
So save me from the night

Save me, oh, give me the light
Save me, I'm closing my eyes
Save me, I won't be the same me
Somebody wake me (So save me from the night)

Terrified, I kill all the parts of me to stay alive
Do or die, it's all or nothing
Running out of time I been on my mind
I can't pay the price (Somebody save me)

On my body all the rest, I
Gave it up all that's left is you
I try to reach but I can't move

Yeah, ooh, waiting for the light
I can't close my eyes
When I'm alone I hear it calling
So save me from the night

Save me, oh, give me the light
Save me, I'm closing my eyes
Save me, I won't be the same me
Somebody wake me (So save me from the night)
