Keshi

I'm lost and I'm lost and  
I'm lost and I'm lost and  
We lost in, emotion  
I'm sorry, unspoken  
Stop talking, explosion  
Make up sex, so broken  
Don't leave me, don't leave me  
I know you, you need me  
I know I'm not that easy, but babe I'm on my knees  
So lost that we can't see  
I want you next to me  
You want to see me bleed  
You want to hear me scream

So loud, but no sound  
We fall down, we fall down

On and off, and off and on  
Can we talk, what's going on?  
When we stop, we never stop  
It's every day, every day  
On and off, and off and on  
Can we talk, what's going on?  
When we stop, we never stop  
It's every day, every day

Careful, slowly, darling what's the hurry?  
Love me, hate me, kiss me when you hurt me  
Dancing when we're burning  
Every day she learning  
Ways to cut my heart into the shape she wants to turn me  
Baby, that's a no no  
How low can you go, go?  
Stick around to find how bad she'll wreck my fucking heart, though

So loud, but no sound  
We fall down, we fall down

On and off, and off and on  
Can we talk, what's going on?  
When we stop, we never stop  
It's every day, every day  
On and off, and off and on  
Can we talk, what's going on?  
When we stop, we never stop  
It's every day, every day
