

say something

Keshi

Tell her I don't know her
Say that I don't know her
Every time she come around
Someone else adore her
Come and say
Baby, say something, baby say something
Baby, say, baby, say something
Baby, baby, say something

Tell her I don't know her
Say that I don't know her
Every time she come around
Someone else adore her
Come and say
Baby, say something, baby say something
Baby, say, baby, say something
Baby, baby, say something

Tell her that I want her
I can't say that I want her
I don't mean to run around
Hide and just ignore her
But I can't
I won't say nothing, I won't say nothing
I won't say, I won't say nothing
I won't, I won't say

Tell her I don't know her
Say that I don't know her
Every time she come around
Someone else adore her
Come and say
Baby, say something, baby say something
Baby, say, baby, say something
Baby, baby, say something
