

Soft Spot

Keshi

I don't go out but I'll do it for you
You never liked it when I drank too much
I hate to dance but I'll dance with you
'Cause I'd do anything to feel your touch

Don't like anybody, tell me why it's different with you
Don't believe in love but no one makes me feel like you do
I don't say it much 'cause I just always thought that you knew, oh

It's what you do to me
I'm wrapped around your finger and it can't stop
You know I got a soft spot for you
You know I got a soft spot for you

Baby, can't you see
I need you 'cause you're everything that I want and more
You know I got a soft spot for you
You know I got a soft spot for you

Too late, don't wanna fall, baby
I just don't need somebody else to throw me aside
But I'm up all night
Thinking 'bout how it could be you to change my heart, but I

Don't like anybody, tell me why it's different with you
Don't believe in love but no one makes me feel like you do
I don't say it much 'cause I just always thought that you knew, oh

It's what you do to me
I'm wrapped around your finger and it can't stop
You know I got a soft spot for you
You know I got a soft spot for you

Baby, can't you see
I need you 'cause you're everything that I want and more
You know I got a soft spot for you
You know I got a soft spot for you

For you
For you, for you
For you
You know I got a soft spot for you

It's what you do to me
I'm wrapped around your finger and it can't stop
You know I got a soft spot for you
You know I got a soft spot for you
