

summer

Keshi

Feel like summer and I don't wanna miss you
If we don't touch lips not an issue
I don't wanna talk bout nobody else
Know I said no love but I want to
Feel like summer and I don't wanna miss you
If we don't touch lips not an issue
I don't wanna talk bout nobody else
Know I said no love but I want to

One time
Maybe twice in
One night
It's alright we're
Both alone so
Go together
Kiss my wounds but
Not forever
Fuck around
Feel my heartbeat
Fallin' down
In the backseat
Fill me up 'cause I'm running on empty
And it's fine if we're only pretending

3 months is all we got
Try not to fall in love
Don't think I had enough but I said it's fine by me

Feel like summer and I don't wanna miss you
If we don't touch lips not an issue
I don't wanna talk bout nobody else
Know I said no love but I want to
Feel like summer and I don't wanna miss you
If we don't touch lips not an issue
I don't wanna talk bout nobody else
Know I said no love but I want to

Said we goin' bye bye in a minute
I'ma chill on the south side, caught feelings
When the leaves turn, no more favors
Nice to meet you, catch you later, Yeah

3 months is all we got
Try not to fall in love
Said I ain't had enough but I think that's fine by me

Feel like summer and I don't wanna miss you
If we don't touch lips not an issue
I don't wanna talk bout nobody else
Know I said no love but I want to
Feel like summer and I don't wanna miss you
If we don't touch lips not an issue
I don't wanna talk bout nobody else
Know I said no love but I want to

(Kiss my wounds but, not forever
Fill me up cus I'm running on empty

Kiss my wounds but, not forever
And it's fine if we're only pretending)
