Keshia Chanté

I know it's almost closin' time
And I'm not tryna hold you up
But I done had a long ass week
And when you do those things that you do
I almost forget
All the things we do
I ain't mad at you

You twerkin' for that coin
And, baby, you employed
You got an education
I get the things that you've done
And you know it's all your own

No, baby, I don't judge you
When you whip that move I lose it
I lose it
And I know you handsome young niggas
But you ain't never fuckin' with a real one
Perfect for a real bitch
I'll change your life real quick

Oh
Don't think about him when you're dancin' on me
I ain't think about him when you're workin' on me
Look at me where you go
I wanna see you
Don't take your eyes off me
I wanna see you
You perfect for a real bitch
I'll change your life real quick

I see you
And I feel you

When you grab that drink
You do your thing
When you touchin' toes
I swear, I'm with it
You know, you know what I'm about
I know, I know what you're about
So look at me when you go
I wanna see you
Don't take your eyes off me
I wanna see you
You perfect for a real bitch
I'll change your life real quick

And I know it's closin' time
But I done had a long ass week
Don't think about him when you're dancin' on me
