A-A-A-Another day, another party, emo bitches all around me
Acid on my tongue, I am dancing like you're feeling nothing
Molly in my pockets just in case we'll all get sober
With my bros we're poppin' pillies, fuck with us, you'll get fucked o

Ah-ah, I will turn to midnight band
Tell me, that you just wanna exist
DM's are on top of me, tell me that you love me
I just want her friend on you, telling that your dying
(Oh my god, that's so [?] I feel so awesome-)
Tell me what the fuck is this song about and my [?] I'm so fuckin' hi

Might remember at the end, tonight
Getting drunk and poppin' tabs, until the fuckin' sunrise
I might overdose again tonight
Doing drugs, until I'm coughing blood and feel brain fry
It's alright, it's alright
In the club, midnight, 'til the sunrise
It's alright, it's alright
I'm with ashes and kets4eki, and we're too high
