it's been hard

kets4eki

Rippo

It's been hard to sleep or eat properly, I'm sorry
I count down my days, numbed off an Oxy
Around the town, I'll never catch a break, bitches haunt me
The big bands came now, we gods at the party
It's been hard to sleep or eat properly, I'm sorry
I count down my days, numbed off an Oxy
Around the town, I'll never catch a break, bitches haunt me
The big bands came now, we gods at the party

We get around, we gettin' lit
They know my name, they want a pic
She gettin' down, we gettin' rich
Don't show my face, still want my dick
Don't take it too far, get fucked up and have fun
With my homies, crashing cars, we rollin' fat ass blunts
We gettin' high all right, do another line
My shawty knows it's fine, it's just me and you tonight
We gonna die all right, it gets better every time
My glasses all white, I can see the other side, yeah

It's been hard to sleep or eat properly, I'm sorry
I count down my days, numbed off an Oxy
Around the town, I'll never catch a break, bitches haunt me
The big bands came now, we gods at the party

It's been hard to sleep or eat properly, I'm sorry
I count down my days, numbed off an Oxy
Around the town, I'll never catch a break, bitches haunt me
The big bands came now, we gods at the party
It's been hard to sleep or eat properly, I'm sorry
I count down my days, numbed off an Oxy
Around the town, I'll never catch a break, bitches haunt me
The big bands came now, we gods at the party

Gods at the party
Gods at the party
