I said I'm ten bands up
I hit my manager
Geeked in the passenger
Hold up, what's up Wasty

I said I'm ten bands up, when I met that bitch at the rave
I hit my manager, told him we got money to chase
Geeked in the passenger, can't you see the look on my face?
Let's get paid, let's get paid, let's get paid
I said I'm ten bands up, when I met that bitch at the rave
I hit my manager, told him we got money to chase
Geeked in the passenger, can't you see the look on my face?
Let's get paid, let's get paid, let's get paid
Let's get paid

I made ten racks today, tell the haters it ain't over
Make my money okay, wit' this scene on both my shoulders
All these bitches just play, knew it as soon as I saw her
My eyes still all gray, made a promise I'll stay sober
Tell me what the fuck you mean, in my DMs to come over
Fingers blue, my money green, now they see, they comin' closer
Richer than I ever been, she get low, we get her lower
You can see it through the screen, live like we ain't gettin' older

I said I'm ten bands up, when I met that bitch at the rave
I hit my manager, told him we got money to chase
Geeked in the passenger, can't you see the look on my face?
Let's get paid, let's get paid, let's get paid
