

I-I-I'm making money while I piss  
Walk around I'm smoking trees  
Bitch I walk around the city, when it's dark, so no one sees  
I been counting on these fifties, now I know it won't mean shit  
'Cause no matter how much green, I won't be happy don't insist  
I-I'm making money while I piss  
Walk around I'm smoking trees  
Bitch I walk around the city, when it's dark, so no one sees  
I been counting on these fifties, now I know it won't mean shit  
'Cause no matter how much green, I won't be happy don't insist

Another day is passing by, no emotions won't feel shit  
Don't you ever say you feel me, when you never been through this  
Family treats me like a ghost, but can't even give a shit  
I don't want no prioritize, I'm just begging, notice me

Another day is passing where I fuck around and feel like shit  
I don't think I'll do this long  
So stick around while it make hits  
I don't sleep on people  
I know that they all will make it big  
Love my people, hate my fans  
Kinda funny, what a twist

I hate you  
I don't want to be you  
I don't want to see you  
I can't lie, I'm fucking up my life  
Leave alone, me and us  
Don't need this, don't need buzz  
Try to fix up my life  
You make it harder, right

Another day is passing where I fuck around and feel like shit  
I don't think I'll do this long  
So stick around while it make hits  
I don't sleep on people  
I know that they all will make it big  
Love my people, hate my fans  
Kinda funny, what a twist, funny what a twist, funny what a twist

I-I-I'm making money while I piss
