Bitch my DMs blowing up, all these baddies wanna fuck
When we walk into the club, better make that body rock
Pour a four, double cup, liver slowly getting fried
Off two pills, level up, kets4eki is a fucking brand
Fab at the party, know you wanna rock with us
Hit the blunt after cart, I'm greening out
Addictions taking over, I don't give a fuck
Rock that body shawty, better make it rock
