

You 'n I, you 'n I
Trying so hard, can't fuck it up
Pop a pill to stop my mind
Overthinking hits me hard
She can't stop fucking with my head
Heard few lies, have to pretend
Have to pretend like it's okay

'Cause every day, every night
More 'n more, I love you baby
You 'n me, you 'n I
I want us till the end of time
You're an angel girl, in disguise
I can't stop thinking of your eyes
Angel girl, in disguise
Girl in disguise
'Cause every day, every night
More 'n more, I love you baby
You 'n me, you 'n I
I want us till the end of time
And all our problems, yeah, they're all whatever
'Cause girl, I think that we can last forever

You 'n I, you 'n I
Trying so hard, can't fuck it up
Pop a pill to stop my mind
Overthinking hits me hard
She can't stop fucking with my head
Heard few lies, have to pretend
Have to pretend like it's okay
Love seems like a dangerous game
You got me with your eyes and care
Take me by the hand, show me things I never experienced
I wish I could focus, and show how much you mean to me
But at the end of the day, I'll fuck it up anyway

'Cause every day, every night
More 'n more, I love you baby
You 'n me, you 'n I
I want us till the end of time
You're an angel girl, in disguise
I can't stop thinking of your eyes
Angel girl, in disguise
Girl in disguise
