

I tell 'em I can't spit no game for free  
Manage to rock back and forth right on your knees  
My heart is in the streets where all my fucking niggas be  
Boy you're in the military, you're in the deep blue sea  
Parking lot-lot-lot lot at H.E.B  
Shit was right down the street from Chuck E Cheese's

We can not run forever, now  
Gotta learn your lesson child  
We can not run forever, now  
Gotta learn your lesson child

I tell my momma I ain't with the bullshit  
Got Atlanta on my mind, I'm really fucking zooted  
RIP my nigga Luke just take me back to Houston  
I was stuck inside apartments thinkin' "what I'm doing?"  
I was high as hell hanging with my white friends  
Thinkin' I'ma be alright if I'm just like them  
Then the police pull up on me with the lights dimmed  
Had me on the ground begging for my life man

We can not run forever, now  
Gotta learn your lesson child  
We can not run forever, now  
Gotta learn your lesson child

I been depressed like every fucking week  
Ever since I left high school, I could barely breathe  
Gotta take pills now just to help me sleep  
Everyday a new demon taking over me  
I'm too scared to let a therapist talk to me  
And in turn make the ones I love turn their back on me  
Break the ones I love, turn their back on me  
Break the ones I love, turn their back on me

We can not run forever, now  
Gotta learn your lesson child  
We can not run forever, now  
Gotta learn your lesson child  
We can not run forever, now  
Gotta learn your lesson child  
We can not run forever, now  
Gotta learn your lesson child
