

Danny's Track

Kevin Abstract

Cost of procrastination is the life you could've lived
When it's real, you feel it, ain't gotta say what it is
Spirit of a slave drowning in the ocean
That's why we don't swim, but on these tracks I'm floating
More motion than yoga teachers with fat ass
Like Hulk Hogan pressed in prison, brother like the black
All facts, y'all cap, clout chase, and piggy back
For them racks, had to leave to bring the city back
Go away and then you see how niggas really act
All caps, I'm him, nigga, I'm really that
Teach your daughters, be grateful, say thank you
And never trust a nigga in a Cartier Santos
They can't hold a candle, it's teddy bears on street light
Used to really feel something when a rapper died
Used to live to die, now I'm dying to live
And success comes to those too busy to notice it
