

This that shit that we live for, young innovation  
This the shit the blogs  
Don't post, dodi mob nation  
Amazing how they don't take us seriously I swear  
A couple miles from here, is a couple gold chairs  
That will lead you to the mountaintops, my homie's call it God's thumb  
That's an allusion assuming that you from the generation I'm from  
The penetration that comes with sitting around waiting for someone  
Who don't really care about your outcome  
See I'm Malcom X meets Steve Jobs  
I am Quentin Tarantino meets Cam'Ron  
I am everything this whole nation just been waiting on  
Patiently waiting for them to activate my microphone  
So I share hell stories from back home  
For them ones who was them ones who couldn't ever make it home  
For them ones who was them ones who had ones who didn't make it home  
This is no longer my song  
This right here is your anthem  
Bounce

Shut the fuck up  
I said shut the fuck up  
We said shut the fuck up  
Shut the fuck up  
I said shut the fuck up and lemme do my thang  
Shut the fuck up and lemme do my thang  
Shut the fuck up and lemme do my thang  
Shut the fuck up and lemme do my thang

I went and built a house in the heavens  
They'll probably burn it down in a second  
They say you gotta get approved by the reverend  
I forgot to hit the man for his blessin'  
You wanna kill me, for being honest huh?  
They call me filthy you think that word fits honestly?  
As a description, that's your opinion  
You wanna kill em?  
Man, good riddance  
So they'll probably shoot me down, I'm a dead man walking  
They'll probably soot me down, I'm a dead man talking  
I stand out when I speak out cause I'm an easy target  
Hating mothafuckas see that and they have a harvest  
Wanna kill em, they throw some hate up on em man  
Rework ya whole style put some make up on ya, man  
Freshness left it so I gotta keep the cape up on it man  
See the ones out in the stands that is why I made this jam, damn

Shut the fuck up  
Shut the fuck up  
I said shut the fuck up  
Shut the fuck up  
I said shut the fuck up and lemme do my thang  
Shut the fuck up and lemme do my thang  
Shut the fuck up and lemme do my thang  
Shut the fuck up and lemme do my thang

I went and built a house in the heavens
