

Red Light

Kevin Abstract

Want you to stay in my scene, mmmm
Want you to say what I mean to me
I would be at a red light all my life, with you
I would be at a red light

How many times you made me weep? A hunnid times
Pretend you there to help me sleep? A hunnid times
How many times we split the bill? A hunnid times
Back when we had the time to kill, that was overkill
You a wanted sign with a dollar sign, like all the time
I call you up, you don't call me back, but I'll call you mine
I put your heart on a dotted line and I crossed the line
So tell me why I'm in the lobby on the rocks with lime?

Want you to stay in my scene, mmmm
Want you to say what I mean to me
I would be at a red light all my life, with you
I would be at a red light

How many times I wiped your tears? A hunnid times
And had your back throughout the years? A hunnid times
How many times I disappeared? A hunnid times
But I reappeared, now I see you here, I can't leave it here
So be a dear and just say the things that I need to hear
'Cause you my baby, I only want you in my Mercedes
I'm driving 80 in the 55, every mile impatient
On the interstate with my mistakes, they overstated

I'll be waiting
Right there where you left me
Right there where you lifted me up, me up
Where you lifted me up
I'll be waiting
Right there where you left me
Right there where you lifted me up
Me up, oh

Want you to stay in my dreams, oh
Want you to say what you mean to me, oh
I would be at a red light all my life, with you
I would be at a red light

Blush
