

Scream

Kevin Abstract

Running under the street lights
Dripping moon covered water
You said, "How far's the house?"
I said, "Just a little bit farther"

How'd I get the courage back then to get you to notice me?

You swing me on the tire
How could I ever get tired of you?
Mosey through the forest
You say, "Pretty," I scream, "Gorgeous"

How'd I get the courage back then to get you to notice me?

Can't be summer, won't be spring
I'll be somewhere in the middle, in between
Make me call out for you
Make me scream
I only hear you through the whispers of the trees
It's make believe
It's make believe

I said I'll pick you up, and you did not believe me
Can you tell me something that'll make it easier?
Easier

Are we too old to be this young?
Turn the lights on
It's a marathon
Took the long way home
Wasting time with you
It's a miracle, miracle

Can't be summer, won't be spring
I'll be somewhere in the middle, in between
Make me call out for you
Make me scream
I only hear you through the whispers of the trees
It's make believe
It's make believe

Bird call
Found them in the valley
Clean boys, but we sweat like athletes
Got my whole heart
Got my whole heart
Nothing at all, nothing on you, you, yeah
First time
First time
First time
