

Do You Believe

Kevin Ayers

Ayers

Do you believe, do you believe, do you believe in yourself?

Do you believe in the things you do
Do you believe in the things you say
And is tomorrow something new
Or is it just another day?

Tell me do you believe, do you believe in love?

Do you believe that love is blind
Something way beyond your mind
And can you see how things turn round
So that what you've lost becomes the thing you've found
Tell me do you believe do you believe in yourself?

Do you believe in love
In a heaven up above
And the stars that shine
Are they yours or mine?

Tell me do you believe, do you believe in yourself?

Love is all we can take to heart
It's our long lost friend, it's our flying start
Oh but you gotta believe
Yeah you gotta believe

Gotta believe gotta believe gotta believe in something

And can you leave yourself behind
Can you step outside your mind
Between the singer and the song
Can you believe that you belong

Tell me do you believe, do you believe,
Do you believe in love

Tell me do you believe, do you believe in yourself?
