

Gemini Child

Kevin Ayers

Spent an awful lot of time making tunes and making rhymes
Things that other people do, yeah
From this heap of words and rhyme
I never really gave much time to something just for you, yeah

Oh gemini child you know I love you
I don't really have to tell you
Cause you know damn well that I do

Anyway it's not so much what I say as
What I do for you girl
So here's a song that I thought of long ago
That really comes from you, yeah

Gemini child, you make life come alive
Suddenly there's so much loving to share with you

And I do gemini child, you make life come alive
Suddenly there's so much loving to share with you

And I do oh gemini child you know I love you
I don't really have to tell you
Cause you know damn well that I do
