Shine a Light

Kevin Ayers

You shine a light in my darkness
I guess you showed me the way
A chance for love to fly again
A chance for come what may

You brought along the colors
When life was turning, turning gray
You opened up your paint box
And painted the blues away

But you're far away, I can't touch you
You're far away and it's too much to
Feel this way, I?ve got to be with you

But you're far away, I can't touch you
You're far away and it's too much to
Feel this way, got to be with you

You to me are special
Can't find the words to say
Only that I miss you
Miss you in every way

But you're far away, I can't touch you
You're far away and it's too much to
Feel this way, I've got to be with you

But you're far away and I can't touch you
You're far away and it's too much to
Feel this way, I've got to be with you
